

Fishdom

Playrix is the developer for this exciting iOS game set underneath the oceans brilliant waves.

Brief Overview Of The Game

The general premise of the game is an image comparison spot the difference game. It is set underwater, where you will be able to see all of the fantastic sites the sea has to offer in stylish cartoon-style graphics. Step into new aquatic terrain where you get to play through hundreds of different puzzles and match three items.

Earn your way to the top and build your aquarium by completing various challenges. You will amass an entire team of underwater friends who can design a custom aquarium they all call home. If you like The thought of swimming deep underwater, you might want to dive on in to try this game out.

Gameplay Analysis:

The gameplay is fairly slow-moving since it is a puzzle-based game. There is more thought than reaction involved with the gameplay design choices overall. Many bright ideas are implemented to keep the puzzles fresh, even if they appear similar on the surface. Enjoy the sights and sounds of the ocean deep underneath the cresting waves.

Hundreds of different images, used in the match-three puzzle games, provide the player with a near-infinite amount of variety in the game. Customize your aquarium and fill it with your collection of fish. They even have their own personality characteristics. Spruce up the aquarium with your custom decorations to make it more personalized to your tastes. Then bring over your friends from Facebook to enjoy some socializing and show off your creativity while exploring underwater. ### Final Verdict

Whether or not love this game depends on the type of gameplay desire.

If slower pace games are more interested in the atmosphere that a game has to offer than the adrenaline rush, you could end up being the perfect this particular title.

Individuals who crave action and adventure and have a hard time sitting still if there is not something that gets the blood rushing may have a hard time enjoying it.

At the same time, the underwater setting is incredibly serene and peaceful; you understand that

not everyone enjoys these settings for their video games.

The People out there who do get enjoyment out of peaceful activities or love underwater settings could end up really loving Fishdom.
