

TikTok - Make Your Day

App Summary of TikTok

Nothing changes if nothing changes. Instagram and Snapchat came and took over photography, YouTube for live streams, and Spotify for music. TikTok is now the game-changing lip-syncing app. TikTok is a social app for generating short voice-synced video clips. With TikTok, you can create and upload your video while singing, dancing, or talking, with your voice cloned.

TikTok is popular for its acting memes with a music or sound clip background. These memes are reproduced and tweaked among youthful users. The TikTok sound clips vary from RnB, rap, electro, country, and pop genres. You can also incorporate music from SoundCloud or YouTube. TikTok app integrates seamless sharing of these videos across various social platforms, such as Facebook, WhatsApp, and Twitter.

Besides creating your videos, you can as well enjoy entertainment on the TikTok app. On the app's home screen, you can explore videos. Comedy, Food, Memes, Sports, Gaming, and DIY are assured of all-time entertainment and inspiration by the global community.

For parents, you can set up the child lock on this TikTok app. You can switch off public commenting, disable duets, downloads and messaging, and hide the account from global search. As a parent, you can also enable Restricted Mode on the app. Your child will thus require a four-digit passcode to access certain content.

Compatibility: iOS 9.3 or later.

Key App Features and Functions

• Video Editing tools

TikTok is rich in stickers and animations for your videos. You can painlessly cut, merge, and duplicate video clips within the app. The AR effects tune your hair, makeup, and eyes colors.

• Seamless Sharing

You can easily share your TikTok clips on Facebook, Instagram, as well as YouTube.

• Audio Tracks

You can tweak various sound clips and sync them to your lips. You can also add various music genres as background to your videos. The TikTok inbuilt library offers a variety of tracks to choose from.

• Duet

If you love singing, the duet feature is yours. You can create a clip and add a duet with me hashtag to tag along a friend to sing.

- Geotagging

TikTok displays all online users in the nearby geolocation and allows them to tag each other. ##
Review of TikTok

Resistance is futile. TikTok is one of the best music video apps globally. The app's excellent video editing tools break all weighing scales. You do not have to exit the app to go and edit your video clips. TikTok allows you to edit and share clean video shots. The app's parental control makes it safe for young ones. As a parent or caregiver, you can limit your child's accessibility to the app. You can set up a password to avert online bullying and sexual harassment.

If you love entertainment and thrill, TikTok is a must-have app on your iPhone or iPad. Despite its huge storage needs, TikTok has succeeded where many have failed. Have no two minds when setting out for this app.

Advantages / Disadvantages
