

ZOOM Cloud Meetings

The Zoom logo is a blue square with the word "zoom" in white lowercase letters.

App Summary of ZOOM Cloud Meetings

The Zoom Cloud Meetings is one of the best video conferencing apps. Zoom provides an array of easy to use features for its users. You no longer have to worry about sitting in the board room physically for hours to listen through that meeting. Zoom meetings are stable and reliable.

You do not need an account to attend a Zoom Cloud Meeting. You simply click on the invitation link, and the Zoom Cloud Meeting app launches automatically. To host a meeting, you will need to create a Zoom account. You could sign up in the conventional method of an email address and password or login via Facebook. When you successfully create an account, the app furnishes you with a Personal Meeting ID to host a meeting.

An awesome feature of the Zoom Cloud Meetings is the flexibility to generate a specific meeting ID. You can customize the meeting password to your preference or make it open to the public.

With the free Zoom Meetings package, you can host up to 100 users for a 40-minute meeting. You can also view 49 of your active users in a grid style view. With Zoom Cloud Meetings, there is no limit on the number of meetings you can schedule.

The Zoom Cloud Meetings also has a waiting room. In case the host is not available, the participants can join the meeting but receive an information screen that the meeting is yet to commence. Not to forget, Zoom Cloud Meetings incorporates end-end call encryption for added security.

Compatibility: iOS 8 or later.
